Louiery R Sincioco

Software Architect and Technical Lead

sincioco.com | louiery@sincioco.com | +63 (966) 230-4023

Professional Summary

Software architect and technical lead delivering C#/.NET applications, Azure serverless platforms and secure REST APIs. Designed a cybersecurity SaaS platform and integrated ChatGPT for natural-language threat queries. Combines system design, hands-on implementation and developer mentoring across cybersecurity, e-commerce and financial technology. Uses AI and Agentic AI workflows with ChatGPT and Codex to support software development.

Technical Skills

Architecture: Application architecture, SaaS, serverless computing, REST APIs, application modernization, authentication and encryption

Microsoft stack: C#, .NET, ASP.NET Core, Microsoft Azure, Azure Functions, Logic Apps, Azure SQL, SQL Server

Web and mobile: Angular, Blazor, JavaScript, HTML, CSS, Swift, Objective-C, iOS

AI and delivery: AI and Agentic AI, ChatGPT integration, Codex-assisted development, Git, Agile, Scrum, Jira, Confluence

Selected Professional Experience

Data Defenders

Architect / Technical Lead / Senior Developer | Jun 2022 - Mar 2026

- Designed, implemented and deployed an Azure serverless cybersecurity platform for the City of Aurora and other clients, enabling real-time threat monitoring and analyst dashboards.
- Used Azure Functions, Logic Apps, Azure SQL, ASP.NET Core, Angular and Blazor to deliver the cloud and web application components.
- Led and mentored engineers in Metro Manila and converted the product into Software as a Service (SaaS).
- Integrated ChatGPT for natural-language queries of threat data and provided on-call application support.

Web Partner Group

Architect / Senior Developer | Oct 2019 - Jun 2022

- Modernized the internal application suite supporting online retail operations across Amazon, eBay and Walmart.
- Designed and developed applications using ASP.NET Core, Blazor, Angular and SQL Server.

Professional Experience Continued

Stealth Monitoring

Technical Lead / Senior Developer | Apr 2019 - Sep 2019

- Oversaw internal application development with ASP.NET Core and Angular.
- Established a Scrum development team in Pasig City and introduced standard development processes.

Alpha Theory

Senior Front-End Developer | May 2016 - Feb 2018

- Served as front-end UI architect and technical lead for modernization of the core financial technology product.
- Partnered with the CTO and VP of User Interface to move the product to a component-based Angular interface using JavaScript, HTML and CSS.

Charles Schwab

Senior Technology Staff / Technical Lead / Scrum Master | Oct 2014 - May 2016

- Designed and developed an enterprise iOS business-continuity application with secure authentication, encryption and data caching.
- Created the application prototype, user interface, REST APIs and SQL Server stored procedures; completed implementation, testing and documentation.
- Integrated MobileIron for per-app VPN, corporate policies, data protection and remote management; led delivery across iOS, ASP.NET MVC and SharePoint projects.

Joined through Randstad as Senior iOS Developer, Oct 2014 - Feb 2015; direct role, Feb 2015 - May 2016.

Certifications

Azure AI Engineer (AI-102) | Azure Fundamentals (AZ-900) | Azure AI Fundamentals (AI-900) | Azure Data Fundamentals (DP-900) | Certified Scrum Master
