Industry and Product Experience

Industry capabilities across five areas of software delivery.

Financial Services	Brokerage reporting and investment applications
Cybersecurity	Threat monitoring and network security
Defense and Public Sector	Mission-support software and collaboration
HR and Employee Benefits	Benefits platforms and business applications
Commerce and SaaS	Enterprise e-commerce and SaaS applications

Financial Services: RCM Capital Management, Sumitomo Bank, Charles Schwab and Alpha Theory.

Cybersecurity: Marine Corps firewall and network security work; Data Defenders threat monitoring.

Five Areas of Expertise

01 C# and .NET Engineering
ASP.NET Core, REST APIs and enterprise applications

02 Azure and AI Integration
Azure Functions, Logic Apps, Azure SQL, SaaS and ChatGPT

03 Web and Mobile Experiences
Angular, Blazor, JavaScript, HTML/CSS, Swift and Objective-C

04 Data and Application Security
SQL Server, stored procedures, authentication and encryption

05 Technical Leadership
Architecture, mentoring, Agile/Scrum and full lifecycle delivery

Experience

Enterprise Software and Product Delivery

Data Defenders

Jun 2022 – Mar 2026

Architect / Technical Lead / Senior Developer | United States and Philippines

- Designed and deployed an Azure serverless cybersecurity platform for the City of Aurora and other clients, giving analysts real-time threat dashboards.
- Led and mentored engineers in Metro Manila and converted the product into a software-as-a-service offering.
- Integrated ChatGPT so analysts could query threat data in natural language; provided on-call application support.

Azure Functions • Logic Apps • Azure SQL • ASP.NET Core • Angular • Blazor

Web Partner Group

Oct 2019 – Jun 2022

Architect / Senior Developer | United States and Philippines

- Modernized internal applications supporting product sales through Amazon, eBay and Walmart.
- Built with ASP.NET Core, Blazor, Angular and SQL Server to equip teams with tools for online retail operations.

ASP.NET Core • Blazor • Angular • SQL Server • Git

Alpha Theory

May 2016 – Feb 2018

Senior Front-End Developer | Charlotte, North Carolina

- Served as front-end UI architect and technical lead for modernization of the financial technology company's core product.
- Partnered with the CTO and VP of User Interface to move the product to a component-based Angular interface.

Angular • AngularJS • JavaScript • HTML5 • CSS3 • D3.js

Charles Schwab

Oct 2014 – May 2016

Senior Technology Staff / Technical Lead / Scrum Master | Englewood, Colorado

- Led iOS, ASP.NET MVC and SharePoint projects for an investment management business with more than $260B in assets under management at the time.
- Built an enterprise iOS business-continuity app with secure authentication, encryption, caching and REST APIs; owned design, implementation, testing and documentation.
- Integrated MobileIron for per-app VPN, policy delivery, data protection and remote management.

Swift • Objective-C • iOS • ASP.NET MVC • Web API • SQL Server • SharePoint

Joined through Randstad as Senior iOS Developer, Oct 2014–Feb 2015; direct role, Feb 2015–May 2016.

ITT Exelis

Feb 2012 – Oct 2014

SharePoint Architect / Developer | Colorado Springs, Colorado

- Architected and developed XCAMS to track personnel in the Middle East using SharePoint and WCF services.

Concurrent part-time engagement

Engineering Foundations and Credentials

Towers Watson

Mar 2011 – Oct 2014

Senior SharePoint Developer / Acting Architect | Denver, Colorado

- Migrated SharePoint applications and data and developed custom portals for major enterprise clients, including Foot Locker, HCA, HSBC and American Express.
- Delivered visual web parts, page layouts and WCF services, alongside native iOS and responsive web applications.

Insight Global

Dec 2010 – Mar 2011

SharePoint Architect | Denver, Colorado

Performed a SharePoint migration for Save the Children through BlueModus, assisted Bacardi USA with OLAP optimization and SharePoint issues, and helped create a web application for AON.

Earlier Experience

Defense and Public Sector: Microsoft: Supported U.S. Air Force SharePoint systems and .NET development for the Missile Defense Agency, DSCA and Joint Warfare Analysis Center. ITT: Architected a U.S. Army logistics web application used in Iraq, Kuwait, Afghanistan and Qatar. United States Marine Corps: Served as Sergeant E-5, developer and network/security administrator; built mission-essential applications and served as chief firewall administrator in Al Asad, Iraq.

Commerce and Business Systems: WageWorks: Architected employer-facing e-commerce and SaaS applications, established coding standards and mentored developers. Demand Foresight: Led architecture and development of a business intelligence and forecasting application for retail supply chains. 3t Systems: Built a management information system for industrial aluminum manufacturing and mentored ASP.NET and SharePoint developers.

Financial Services: RCM Capital Management: Developed enterprise applications across the software development lifecycle. Sumitomo Bank of California: Built an Exchange groupware application with database access, serial routing and multilevel approvals. Earlier Charles Schwab roles: Developed brokerage reporting and internal audit applications covering schedules, risk and business processes.

Additional Consulting: Other consulting experience includes Oracle and Lante.

Certifications and Recognition

Azure AI Engineer (AI-102) • Azure Fundamentals (AZ-900) • Azure AI Fundamentals (AI-900) • Azure Data Fundamentals (DP-900) • Certified Scrum Master • Microsoft Certified Professional Developer (MCPD)

View Microsoft Certification Transcript

Microsoft Great People Great Performance Award • ITT Silver Team Award • Two Navy and Marine Corps Achievement Medals

Education

Undergraduate coursework in Computer Science, San Francisco State University; studies included assembly, C and object-oriented programming in C++.
